PROFILE

Computer Science undergraduate and aspiring Full-Stack Developer with strong proficiency in the **MERN** stack and a solid foundation in **Java** and **Data Structures & Algorithms**. Experienced in building full-stack applications and RESTful APIs with a focus on scalability and clean code. Passionate about **problem-solving** and seeking a software engineering internship to contribute to high-impact engineering teams.

EDUCATION

- Bachelor of Technology in Computer Science and Engineering, Bundelkhand Institute of Engineering and Technology, Jhansi 2024 – 2028
GPA – 7.75
- Intermediate, St. Angeloes College (ICSE), Lucknow 2023
Percentage – 89.25%

SKILLS

- Programming Languages: Java, JavaScript, C
- Core Concepts: Data structures and Algorithms, RESTful APIs, Problem Solving, Basic System Designing
- Cloud and Tooling (Basics): AWS (EC2, S3), Docker, Git, GitHub
- Backend Technologies: Node.js, Express.js, WebSockets (Socket.IO)
- Databases (Basics): MongoDB, PostgreSQL
- Frontend Technologies: React, Tailwind CSS

EXPERIENCE

Projects

- **tChat24** – A Real time chatting Application. | [GitHub Repo](#) January 2026
 - o Built a **real-time anonymous chat app** using **React and WebSockets** for low-latency messaging.
 - o Implemented **client-side message storage, filtering, and routing** using localStorage.
 - o Debugged and optimized **React hooks, re-renders, and real-time event flows**.
 - o Live Demo - <https://tchat24.netlify.app/>
- **Short URL** – A URL shortening service. | [GitHub Repo](#) June 2025
 - o Built a **URL shortening backend**, implementing redirect logic and visit tracking.
 - o Built a **URL shortening backend** using **Node.js, Express, and MongoDB**, implementing redirect logic and visit tracking.
 - o Designed a **RESTful backend architecture** with proper **authorization, middleware, and route separation**, with minimal UI using EJS.
 - o Live Demo - <https://short-url-s6b3.onrender.com>
- **Blogify** - **Server-side rendered blogging platform** following **MVC architecture**. | [GitHub Repo](#) November 2025
 - o JWT-based authentication & authorization with secure cookie handling and encrypted passwords.
 - o Integrated streaming file uploads using **Busboy** and **Cloudinary**, avoiding disk and memory buffering.
 - o Gained hands-on experience with cloud storage integrations including Cloudinary and **AWS S3 SDK**.
 - o Live Demo - <https://blogify-zzj0.onrender.com>

CERTIFICATIONS

- **CS50:** Introduction to Computer Science | Harvard University (via edx) August 2024 – November 2024

ACHIEVEMENTS

- Served as **School Captain**, demonstrating leadership, team coordination, event management, problem solving, critical thinking and communication skills.
