

MOHD Zeeshan Quraishi

+91-8299823681 | zq8281@gmail.com | github.com/8zeeshan1 | linkedin.com/in/mohd-zeeshan-quraishi/

PROFILE

Aspiring **full-stack developer seeking an internship** opportunity to apply and grow my skills in web development and **Problem-Solving**. Proficient in modern frontend and backend technologies with a growing foundation in data structures and algorithms using **Java**.

EDUCATION

- Bachelor of Technology (**B.Tech**) in **Computer Science and Engineering**
Bundelkhand Institute of Engineering and Technology, Jhansi, Uttar Pradesh 2024 – 2028 (Expected)
1st Semester GPA: 7.59
- Intermediate –
ST. Angeloes College, ICSE 2023
Percentage: 89.25%

SKILLS

- Frontend: HTML, CSS, JavaScript, Tailwind CSS
- Backend: Node.js, Express.js
- Database: MongoDB, SQL (basic)
- Programming Languages: Java (DSA), C
- Tools: Git, Github

CERTIFICATIONS

CS50: Introduction to Computer Science | **Harvard University** (via edX) August 2024 - November 2024

EXPERIENCE

Projects

- ➔ Weather Report App | [GitHub - 8zeeshan1/Real-time-weather](https://github.com/8zeeshan1/Real-time-weather) March 2025
 - Built a **responsive app** that fetches real-time weather data using a public **API** with the help of HTML, CSS and JavaScript.
 - Featured with Dynamic location selection (Country -> State -> City) by extracting data from JSON file.
 - Solved the problem of edge case where city or state are not available.
- ➔ Currency Converter | [GitHub - 8zeeshan1/Currency-Exchange](https://github.com/8zeeshan1/Currency-Exchange) April 2025
 - Developed project to exchange currencies **using live exchange rate APIs** and with the help of HTML, CSS and JavaScript.
 - Flags displayed dynamically according to the selected Country.
 - Error handling for invalid or empty input amount.
- ➔ Short-URL Service | [GitHub - 8zeeshan1/Short-URL](https://github.com/8zeeshan1/Short-URL) June 2025
 - **A full-stack URL shortening service** built using Node.js, Express.js, and MongoDB on a RESTful API architecture, with EJS as the templating engine for server-side rendered frontend.
 - **Demonstrates backend logic**, database integration, and dynamic routing to redirect users from a short URL to the original long URL. It also provides hands-on experience with session management via cookies and authentication headers.
 - **Illustrates a solid understanding of authentication and authorization**, showcasing secure API practices through both cookie-based sessions and JWTs for managing user identity and access control.

ACHIEVEMENTS

- Served as **School Captain**, demonstrating leadership, team coordination, event management, critical thinking, communication and problem solving skills.
- Led event planning, team management and public speaking for multiple school-wide activities.
